Promoting Trade and
Economic Contacts between
Switzerland and Japan

About the SJCC

The purpose of the Swiss-Japanese Chamber of Commerce (SJCC) is to promote trade and economic contacts between Switzerland and Japan.

The SJCC accomplishes its mission by providing individual and corporate members with a networking platform. It promotes the discussion of economy-related themes and other topics of shared interest relating to the two countries. It maintains good relations with the authorities and economic organizations in both countries and supports them by developing and maintaining bilateral relations.

Activities

Scholarship Fund

Since 1988, the SJCC has been awarding grants through its Scholarship Fund to encourage and support young Swiss residents in their efforts to learn more about Japan and its culture, language, society, and business environment. To date, 225 male and female scholarship recipients have benefited from this valuable career development program.

Young Professionals

The SJCC Young Professionals Association provides a networking platform for former recipients of the Scholarship Fund and like-minded young professionals.

Parliamentary Group

The office of the SJCC also acts as secretariat of the Parliamentary Friendship Group Switzerland-Japan (スイス日本友好議員連盟), which includes 32 Members of the Federal Assembly.

Membership

Why Join the SJCC?

SJCC members benefit from a network of 300 members. The Chamber organizes dinner presentations, business seminars, and after-work events throughout Switzerland, giving you the opportunity to meet with other members and obtain up-to-date information on Swiss-Japanese relations.

Members also benefit from discounted participation fees on all SJCC events.

Membership Application

Visit our website at www.sjcc.ch/membership, where you will find our corporate member directory and an online application form.
