Speaker

Dr. Sachio Semmoto is a highly accomplished entrepreneur and telecommunications expert, renowned for founding and leading successful companies such as eAccess Ltd., EMOBILE Ltd., and DDI Corporation. With over 30 years of experience, he has played a pivotal role in developing Japan's telecommunications infrastructure and has held esteemed positions as a professor at Keio University and visiting professor at renowned universities. Dr. Semmoto's expertise, recognized by his IEEE Fellow status, extends to high-technology management, where he has made significant contributions. Currently serving as Chairman of various organizations, he continues to drive innovation at the intersection of IT sector entrepreneurship, telecommunications technology, and security.

Content of the lecture

In this captivating lecture, renowned businessperson Dr. Sachio Semmoto sheds light on the dynamic challenges and opportunities that Japan faces as it seeks to adapt to a shifting global geopolitical landscape. Drawing upon his extensive experience in the technology and telecoms sector, Dr. Semmoto shares his unique perspectives on Japan's approach to challenges such as persistent inflation, low wages and aging demographics, while shedding light on opportunities in the technology space, including Japan's role in the contentious race for advanced semiconductors. Join us as we engage in an interactive discussion with Dr. Semmoto, where he welcomes questions and explores the realities of investing in Japan's future.

Japan Lecture Series

The Japan Lecture Series is dedicated to topics that concern both Switzerland and Japan. Important personalities from Japan from a wide range of disciplines will give public lectures at the University of Zurich.
